

WEST WALES WILD WATCH

Free wildlife recording sessions with West Wales Biodiversity Information Centre. A great way to discover your local wildlife.

In these sessions, we'll cover what, why and how to identify and record wildlife, which is essential for protecting it. We'll explore the local wildlife habitats together, record the species we find and have fun looking at nature in a relaxed, practical session. All welcome, regardless of experience.

Regular West Wales Wild Watch sessions move around the communities of Ceredigion, Pembrokeshire, and Carmarthenshire, focusing on different wildlife in different seasons. We can offer advice and resources to help you carry on recording the biodiversity of your local patch.

Upcoming Dates/ Locations in Pembrokeshire:

Mynachlog-ddu: Friday 24th Oct, 10am – 1pm

Meet at car park by Carreg Waldo. What3words: [format.twit.blurts](#)
